INTRODUCING THE ENFOLD SIDEBOARD, A STORAGE DESIGN THAT FUSES INDUSTRIAL REFERENCES WITH SCANDINAVIAN MATERIALITY

Bringing the industrial elements of factories into the home is the Enfold Sideboard by Danish designer Thomas Bentzen. Made from a lacquered steel that gently enfolds the components in solid oak, the Enfold Sideboard fuses cold and warm materials.

Adding to this are the sliding doors of the design in lacquered steel that has been punched and bended for a unique ridged surface, giving the design a graphical and modern expression. Here, the steel elements of the Enfold Sideboard are presented in the colors of black, light grey, dusty green and sand yellow while the wooden parts have a clear lacquer for a natural touch. Enfold Sideboard is also available in monochrome versions of black/black, grey/grey, dusty green/dusty green and sand yellow/sand yellow.

The Enfold Sideboard comes in two sizes: one vertical, one horizontal, both with a set of adjustable shelves. Here, the horizontal one has two shelves that can be placed across five different levels while the vertical one has a single shelf that can be placed across three different levels.

The design has no visible screws, making Enfold Sideboard a refined and elevated storage design for any home, work space or hospitality setting.

THOMAS BENTZEN ON THE DESIGN

"The Enfold Sideboard joins a warm touch of oak with a contemporary look of its ridged front, softening up the cold steel material and binding it together with the sideboard's oak components. The design is a new perspective on the traditional sideboard with an at once industrial and homey feeling, characterized by its unique duality of materials."

ABOUT THOMAS BENTZEN

Thomas Bentzen founded his own studio in 2010 with his design receiving international recognition at fairs and exhibitions across the world. Bentzen's philosophy is to create objects that are functional and simple, and meet the human need while in use and create joy when not. "For me, durability means quality, form and functionality and putting an immense amount of energy into making virtues out of necessities," he says of his work.

ABOUT MUUTO

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression. By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.
