

Bundle I

Free standing galvanized shelf intended for outdoor use. This smaller one section combination is optimal for the smaller outdoor space, such as a balcony. With one galvanized metal shelf with high edge and one with low edge this combination gives you plenty of storage for larger items. The galvanized material changes over time and leaves you with a beautiful patina.

Bundle J

Free standing galvanized shelf intended for outdoor use. This smaller one section combination is optimized with shelves on either side of the shelf. A mix of galvanized metal shelves with high and low edge give the shelf character and further storage possibilities. The galvanized material changes over time and leaves you with a beautiful patina.

Bundle K

Free standing galvanized shelf intended for outdoor use. This medium sized two section combination is optimal for the larger balcony or patio. A mix of galvanized metal shelves with high and low edge give the shelf character and further storage possibilities. The galvanized material changes over time and leaves you with a beautiful patina.

Bundle L

Free standing galvanized shelf intended for outdoor use. This medium sized two section combination is optimized with shelves on either side of the shelf. A mix of galvanized metal shelves with high and low edge give the shelf character and further storage possibilities. The galvanized material changes over time and leaves you with a beautiful patina.

Bundle M

Free standing galvanized shelf intended for outdoor use. This larger three section combination is optimal for the larger balcony or patio. A mix of galvanized metal shelves with high and low edge give the shelf character and further storage possibilities. The galvanized material changes over time and leaves you with a beautiful patina.

Bundle N

Free standing galvanized shelf intended for outdoor use. This larger three section combination is optimized with shelves on either side of the shelf. A mix of galvanized metal shelves with high and low edge are added to give the combination character. The galvanized material changes over time and leaves you with a beautiful patina.
