

FRITZ HANSEN

N02™ RECYCLE HOUSEHOLD WASTE REDESIGNED

An all-purpose chair from Fritz Hansen
made from upcycled plastic, household waste.

HOUSEHOLD WASTE REDESIGNED

N02™ Recycle is a strong, stackable chair by Japanese studio nendo inspired by a simple crease of paper on the designer's work table. The chair's elegant shell is circular plastic, meaning it is made of recycled plastic that can be recycled again if necessary.

The plastic for N02™ Recycle comes from household, plastic waste collected, processed and upcycled in central Europe.

Leg and shell options make N02™ Recycle a strong solution for a variety of contract settings such as meeting rooms, canteens and presentation spaces.

Soft edges make this chair extremely comfortable for extended periods of time.

MODEL NUMBER

N02-10 / N02-11
N02-20
N02-30 / N02-31

DESIGN

nendo, 2019

MATERIALS

Shell:

The shell and armpad are made of 100% recycled/recyclable polypropylene.

Base:

- 4-legged tube base comes in powder coated steel (monochrome) or chromed steel upon request.
- Sledge base is chromed steel (50% recycled)
- Swivel base is polished aluminium (95% recycled)

WARRANTY
