VICO DUO  
PRODUCT FACT SHEET

# VICO DUO

The Vico Duo is a stylish veneer stacking chair with simple, tight lines. Vico Magistretti designed the original in 1997, sitting among his sketches in Fritz Hansen's design department. The chair is well suited for agile work spaces and hospitality.

## PRODUCT TYPE

Chair / Armchair

## ENVIRONMENT

Indoor

## DESIGNER/ YEAR OF DESIGN

Vico Magistretti, 1997/2020

## DESIGNER

Vico Magistretti is considered one of the founders of Italian design and is widely known for his experimental yet striking harmonic works, ranging from rigorous conceptual furniture to detailed architectural facades.

## MODELS

VM110: Chair w. tube legs (stackable)  
VM120: Armchair w. tube legs (stackable)

## MATERIAL

**Shell:** The shell is made of pressure moulded veneer and is available in the finishes clear lacquered and coloured ash.

**Bases:** The base is made of steel tubes and leg ferrules of black synthetic material. It is available in chromed steel or black powder coated steel.

**Armpads:** The armpads are made of PA6 GK 30%.

### Materials in %:

VM110: Wood: 49%, Steel 48%, Plastic 3%  
VM111: Wood: 42%, Steel 54%, Plastic 4%

*Items with a weight <1% of the total product weight are not included in the figures.*

## FEATURES

- Seat cushion: VM170 (2 colours)
- Felt glides
- Transport dolly: Small for 10 chairs / 8 armchairs
- Transport dolly: Large for 40 chairs (ETA October 2020)

## COLOURS

The shell is available in 3 variants:

The base is available in 2 variants:

## PRODUCTION PROCESS

**Wood:** The shell is made of laminated, pressure moulded veneer - 9 layers in total. The 2 outer layers are made in veneer of different wood types, the 7 inner layers are made of beech. The veneer layers are glued together with water-based urea-formaldehyde glue. Un-upholstered chairs are coated with polyurethane lacquer, which prevents the emission of formaldehyde.

**Steel:** The bases are made of chromed steel or powder coated steel. Fritz Hansen uses both trivalent chromium (Cr3) and hexavalent chromium (Cr6) for chromium plating. Fritz Hansen will convert to solely using trivalent chromium (Cr3) when the capacity in the Industry allows it.

**Seat cushion:** Made with HR foam and upholstered with Just fabric made of 98% post-consumer recycled polyester. The fabric Just is certified with Standard 100 by OEKO-TEX® and the EU Ecolabel.

## MADE-TO-ORDER

Non-standard configurations (special colours, upholstery etc.) are available upon request at a minimum order quantity.

Vico Duo with sledge base, front upholstery, full upholstery and as a barstool is available upon request. Please contact your local Fritz Hansen sales representative for more information.

## TEST

- EN 16139 (EN 1728) Test Level 1 General Contract use for strength and durability
- EN 1022 for stability

## CERTIFICATION

PEFC™ PEFC/09-31-068: All wood components are made from PEFC-certified wood.

**GreenGuard:** Vico Duo is GreenGuard Gold certified.

## WEIGHT

VM110: 4,5 kg / 9.9 lb  
VM111: 5,2 kg / 11.5 lb

## COUNTRY OF ORIGIN

Poland

## PREASSEMBLED

Yes

**PACKAGING**

The chair is covered with a plastic bag and shipped in a cardboard box with genuine foam inside. All packaging material can be recycled.

**CLEANING AND CARE**

**Veneer:** Wipe the surface with a clean cloth. Stains and dirt can be removed from the surface with a clean cloth wrung in water, or in a solution of hot water and a universal cleaning detergent (ammonia acceptable), soap flakes (1/4 dl (decilitre) soap flakes for 1 litre hot water, cooled), a washing detergent or hot water with about 10% vinegar. Finally, wipe off the surface with a clean, dry cloth.

**Powder coated surfaces:** Clean the surface by wiping it with a dry cloth. Dirt can be removed with a cloth wrung out in lukewarm water. If this does not remove the dirt, a mild solution containing a universal cleaning agent or dishwashing liquid may be used. Then dry off the surface with a cloth wrung out in clean water and finish by wiping with a dry cloth. Note: Do not use solvents on coated frames.

**Chromed surfaces:** Chrome can be wiped with a dry or damp cloth wrung in soapy water, and then wiped with a dry cloth afterwards. For thorough cleaning chrome surfaces can be wiped with a cloth moistened with alcohol.

**REPAIR, DISPOSAL AND REUSE**

In the case of disposal the chair can be disassembled into different parts for recycling, special handling and repair. Check local regulations for recycling options and whether there is potential for reuse.

**WARRANTY**

Fritz Hansen provides a five-year warranty on standard products against defects in materials and workmanship.

An extended warranty of up to twenty years is provided on selected products provided they have been registered online on [FRITZHANSEN.COM/MY-FH](http://FRITZHANSEN.COM/MY-FH).

**Standard (5 years):**  
Base (Lacquer)

**Extended (10 years):**  
Shell, Armrest, Base

No warranty is provided on products with customer’s choice of leather, fabrics or materials ordered as special materials.
