Eames Contract Tables High

vitra.

Charles & Ray Eames, 1968

The universal base designed by Charles and Ray Eames for the Contract Tables also exists in a standing-height version. Reminiscent of the bases of the Soft Pad Group in shape, its structure echoes those of the larger Eames Segmented Tables. The Contract Tables High are 110 cm in height and are ideal as small standing meeting tables or as bistro tables for both indoor and outdoor use. They are available with a square top or with a round version in a choice of two diameters.

Materials

- Table tops: available in four materials: melamine-faced white surface (25 mm) with smooth, straight plastic edge in white; light or dark oak veneer (Europe) (25 mm) with flat veneer edge; solid core material in white (12 mm) with black edge; HPL (25 mm) with black edge.
- Base: stable pedestal base, four-star legs in die-cast aluminium. Available in four versions: base polished or chrome-plated with column in basic dark (RAL 9004), all chrome or all powder-coated (textured finish) in deep black (RAL 9005) or white (RAL 9010). The height of the base including screw-in glides is 107,5 cm; the glides can be adjusted (max. extension 10 mm) for levelling on uneven floors.

Outdoor use: version with a powder-coated base and solid core top suitable for utilisation outdoors on a temporary or seasonal basis, following care instructions.

After prolonged exposure to the elements, clean and store away in a dry, sheltered place to ensure lasting use and avoid any deterioration in appearance.
