

# AURA LIGHT

## Sabine Marcelis

**Type:** Suspension Light

**Design:** 2020  
**Designer:** Sabine Marcelis

Harnessing Marcelis' expertise in colour, the suspended cylinder bar of the Aura Light can stand alone or work as part of a grouping. Over a metre in length, the design is made from a bio-epoxy resin, created using by-products from farming. A replaceable LED tube is housed within the coloured resin case, with the light travelling through the material to create a soft, warm glow.
