**Information:**  
**Material:** Shelves, cabinets and tabletops: MDF veneer.  
 Drawers, rails and tablelegs: Solid wood  
 Hangers: Raw brass or stainless steel at the same price  
**Treatment:** Oil or soap  
**NOTE:** New parts (dk3) are not compatible with old parts (before 1985)

**Supplied by: Bernstorffsmide A/S**

**Please find configurations and prices on the next page and visit our online configurator for individual ROYAL SYSTEM® combinations on [www.dk3.dk](http://www.dk3.dk)**

There may be color differences in the different materials. In time, there may be light deflections on the shelves. In order to maintain a straight profile, we recommend a max load of 15 kg per shelf. Since brass is softer than stainless steel, it is also expected that the shelves with brass hangers "work" more than shelves with stainless steel hangers. Hangers are not sold separately. We recommend that the ROYAL SYSTEM® is always installed by professionals. (Please see installation guide video at [www.dk3.dk](http://www.dk3.dk)). Tested at DANISH TECHNOLOGICAL INSTITUTE EN16121:2013 / EN16122:2012 in 2016.

dk3 has relaunched the original design from 1948, but due to new production techniques, new parts are not compatible with old parts produced before 1985.
