

TIMBER/FINISH OPTIONS

All timber products are available in all of the solid timbers and finishes listed on pages 3 and 4 of this document unless otherwise indicated in our media. The timber we use is from sustainable farms. The trees on the farms are pruned regularly to allow for consistent grain patterns and fewer knots, ensuring exceptionally strong planks of the highest quality.

Our oil finishes provide a renewable surface for enduring beauty.

Our oxidised timber is sealed with a clear matte lacquer to maintain the colour whilst preserving the tactility of the surface.

PAINT/STAIN OPTIONS

We offer ten standard colours that can be applied to our products in a variety of ways:

PAINTED ASH

European ash timber is wire brushed to create a textured surface before the application of the paint.

STAINED ASH

European ash timber is stained then sealed with a clear matte lacquer to maintain the colour whilst preserving the tactility of the surface.

PAINTED HDF

High density fibreboard is painted to create our satin matte finish, or painted then coated in clear lacquer to create our gloss finish.

PAINTED FIBREGLASS

Fibreglass is painted to create our satin matte finish, or painted then coated in clear lacquer to create our gloss finish.

TIMBER FOR MANUEL AIRES MATEUS PRODUCTS

European Douglas Fir timber is available exclusively for products designed by Manuel Aires Mateus.

The timber we use is from sustainable farms. Douglas fir trees can grow to very large sizes which, when regularly pruned, results in impressively wide and long planks of timber with consistent grain patterns. Knots are naturally present in this timber, lending character to each plank.

Our white oil finish provides a renewable surface for enduring beauty.

TIMBER FOR OUTDOOR FURNITURE

Our outdoor furniture is crafted from sustainable European white oak from Croatia. White oak from this region has a particularly high tannin content which naturally protects the wood from rot, making it particularly suitable for outdoor furniture.

We finish the timber with a black oil finish which darkens the grain and deepens the tone of the wood. Wood furniture used outdoors will age and adopt a beautiful silver grey/dark grey patina over time.

Our black oil finish provides a renewable surface for enduring beauty.
