PRODUCT DATA SHEET

HJW37 THE PENDANT

The HJW37 The Pendant was designed by Hans J. Wegner in 1962 and has been in production ever since. The pendant features an aluminium shade with a 24-carat gold- or nickel-plated hanger and extrudes a soft, warm light ideal to illuminate a dining- or coffee table. The design comprises several functional elements such as an optional lift and height adjustable socket to adapt the height of the lamp and the light bulb for glare free lighting. Its inherent versatility makes its suitable for both the living- and dining room.
