

# Finiture

WOODENLAND  
WOODENLAND

---

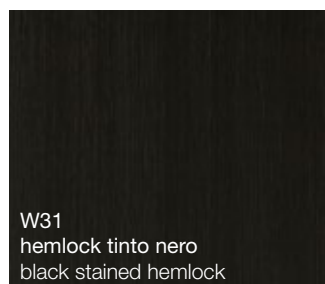

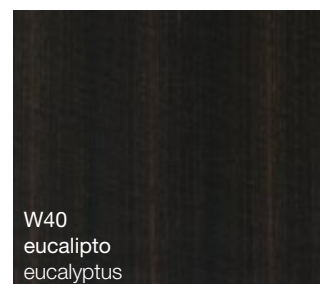

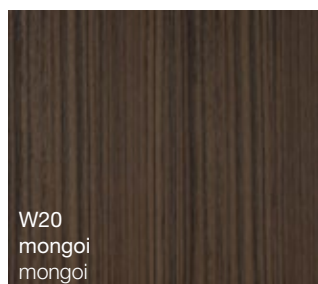

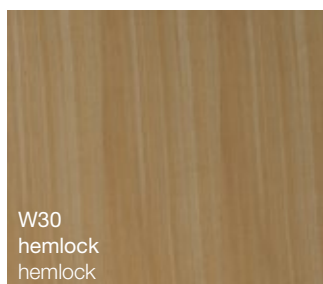

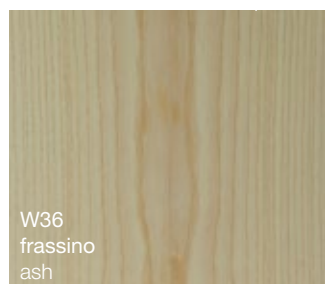

La collezione di 18 legni Woodeland amplia la proposta di finiture in diversi pezzi della Collezione.

**Eventuali irregolarità cromatiche e nel disegno delle venature sono da considerarsi un pregio legato alle caratteristiche proprie del legno, un materiale naturale, e all'artigianalità del processo di lavorazione.**

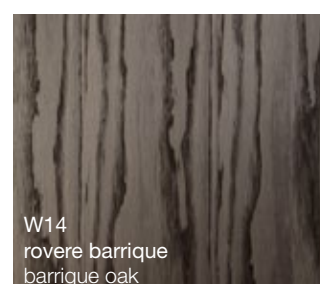

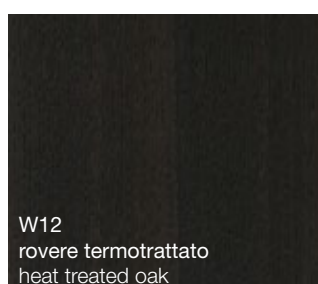

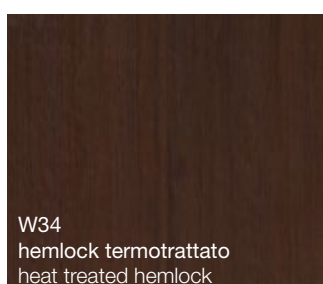

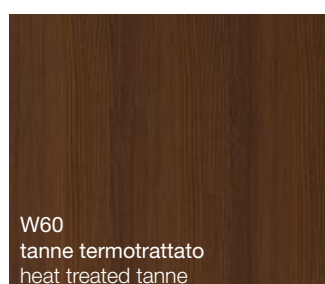

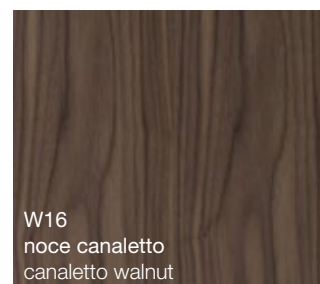

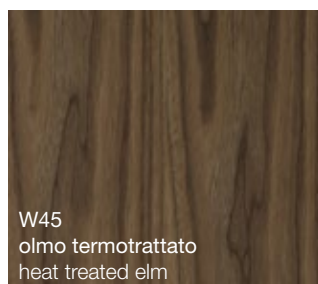

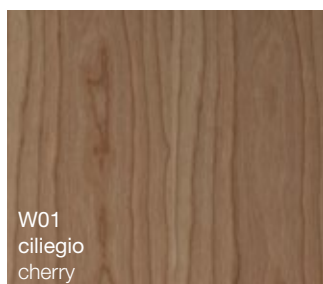

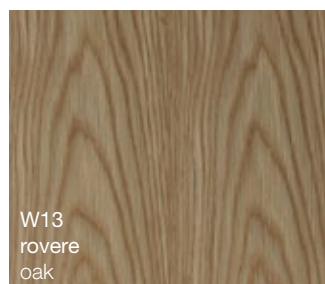

The 18 wood collection, named Woodenland, widens the proposal of finishes in many pieces of the Collection.

**Any colour differences and irregularity in the veins should be considered as a value and specific characteristic of the wood, a natural material, and the result of a fine workmanship process.**
