Product description:

The A Line Shoe Rack is a small harmoniously designed combined shoe rack and console table that helps make the best use of the narrow space found in hallways, utility rooms or functional entrance halls. It is made of sustainable sourced oak of the highest quality and its contours are rounded carefully in line with artisan craft tradition. The large top shelf above the rack serves as a console table. Each shelf can accommodate one pair of shoes and four pairs of shoes in total. We recommend mounting the shoe rack to the wall with the metal brackets included. The shoe rack can however lean against the wall without mounting.

Designer's thoughts:

"We wanted to design a space-saving piece of furniture for the hallway that could hold shoes and form a small console table. The piece has been built intentionally relatively high to facilitate its fullest expression and create a visible space between the shoes." - Herman Studio
