#### Product Information

w 182 pastille can be described as a pure disc of light, attached to a thin line – a construction that allows a variety of 'surfaces' to be illuminated. Different to task lamps that illuminate in a focused way; or table and pendant lamps that provide ambient light; w 182 pastille sees environments as surfaces to softly illuminate a wall, a floor or a table. It is able to freely articulate between these surfaces by rotating up, down and around. It is a gentle light that is complimentary to interiors, that reflects how we would like to live and work. Utterly simple yet flexible in its presentation, materiality and use.

w 182 pastille is made of a high-performance material. A largely bio-based polyamide that is based on over 60% biologically sourced and recyclable material from the castor plant. No paint is used either. Its material provides warmth and strength, making w 182 pastille lighter and easier to adjust from anywhere on the lamp. At the top of its vertical pole is a single control button for on/off and dimming.

w 182 pastille creates a remarkable spread of light that is warm and dimmable all from a single LED rather than an array. This reduces heat, reduces energy use, and keeps the lamp affordable. It is achieved by reaching a state of equilibrium between its single light source, a large reflector and large diffuser. The result is a new kind of simplicity where the diffuser itself is as malleable with the hand as any other part of the lamp.

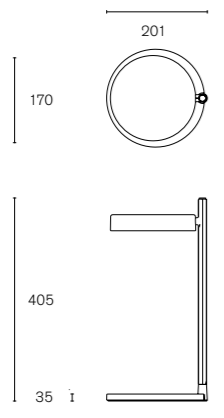

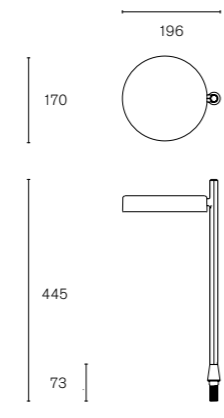

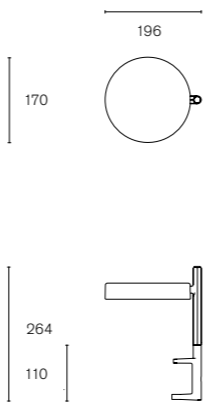

Since w 182 pastille is about illuminating surfaces, attention has been paid to how it can adapt to a variety of spatial conditions. It can sit on a table; clamp to a desk or shelf; hang from a wall; stand hi on a floor; or integrate into a table or wall surface with no visible cable.

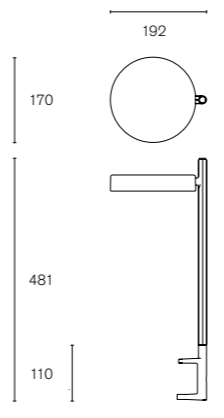

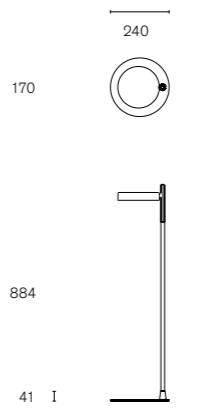

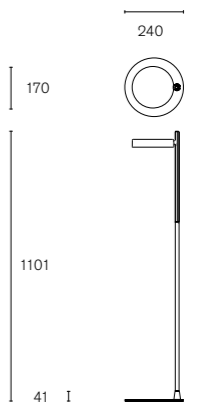

#### w 182 pastille

Product name	w 182 pastille b2	w 182 pastille p2	w 182 pastille c1			
<b>Dimensions (mm)</b>						
<b>Model</b>	Table lamp – long arm	Table lamp – long arm	Table lamp – short arm			
<b>Mounting</b>	Base	Pin – integrated	Clamp			
<b>Material</b>	Solid fiberglass reinforced biopolyamide	Solid fiberglass reinforced biopolyamide	Solid fiberglass reinforced biopolyamide			
<b>Cord length</b>	200 cm	200 cm	200 cm			
<b>Light source</b>	LED COB	LED COB	LED COB			
<b>Watt</b>	6.3 W	6.3 W	6.3 W			
<b>Lumen</b>	661.5	661.5	661.5			
<b>Lumen/W</b>	105	105	105			
<b>Colour temperature</b>	2 700 K	2 700 K	2 700 K			
<b>CRI</b>	90	90	90			
<b>Light source life expectancy</b>	50 000 h	50 000 h	50 000 h

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
